PTOL-303 (Rev. 04-01)

Continuation of 5. does NOT place the application in condition for allowance because: The Applicant is seeking to narrow the scope of the claims. To Applicant's contention that Kobayahsi does not teach a polarizer, the Examiner disagrees as the reference discloses this teaching. See column 3, lines 34-40. The film of Kobayashi is used as a polarizer and therefore provides a functional equivalent to Applicant's claimed polarizer. Miyatake's use as a commercial polarizing film having a high shrinkage force is not germane to patentability. Miyatake teaches an optical member as a polarizer. Both references because they are in the same field of optics are proper to combine.
